

Prodigy Technologies

Software Development and Consultancy

About Us

We are Prodigy Technologies based in Pune, developing software products for the corporate world. We aspire to become leading software solution provider by developing Payroll, HRMS, CRM and ERP softwares. In very short span of time we got to service world class companies including Indian subsidiaries of German and French companies.

Why Intelli Payroll?

In today's world of competitive market and high compliance driven demand it is eminent to have a comprehensive solution for employee payroll and hence a need for intelligent payroll software.

Intelli Payroll fits best in the corporate world to do justice to HR's needs since it is intelligent enough to discharge its duty with 100% compliance with all government laws.

So now your HR can devote quality time to their core responsibilities and forget about payroll hassles.

Intelli Payroll not only encompass all government laws but gives you various reports helpful for provisioning and accounting.

Intelli Payroll includes PF, ESIC, PT, TDS, LWF, Bonus and other modules.
